Portfolio Manager

ATB Investment Management Inc.

My Objectives

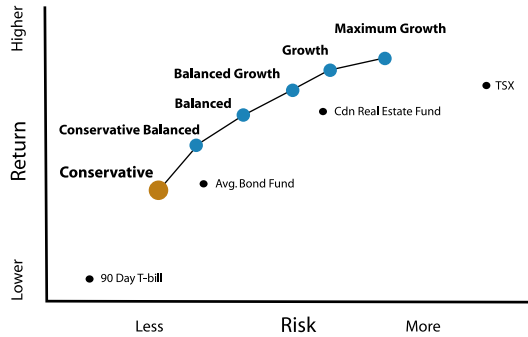

"I need my investment to be secure yet want higher return potential and liquidity than GIC's."

The Compass Conservative Portfolio will accomplish my objectives by

Allocating my investment across a diversified portfolio of fixed income securities, money market instruments, and income trusts to provide income and some capital appreciation while preserving principal and reducing volatility.

The Compass Conservative Portfolio suits me because

- I am seeking to maximize my return potential for the level of investment risk that I am willing to take.
- I plan to stay invested for at least three years.
- I want professional portfolio managers to evaluate and adjust my investment portfolio to maintain my objectives.

The Compass Conservative Portfolio diversifies my investment by

Asset Class

An optimal mix of government, corporate, and high yield bonds, money market instruments and income trusts.

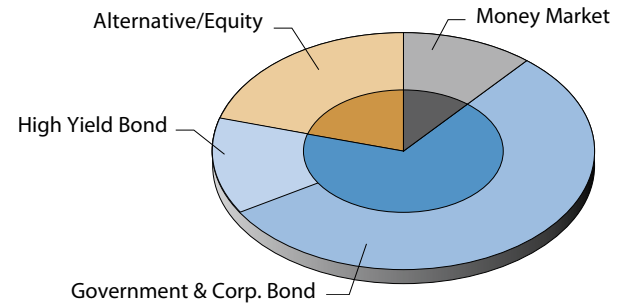

Investment Style

Complementary blends of active and passive investment management styles.

Manager

Multiple best-in-class investment managers to add expertise and reduce risk.

- Cash & Equivalents 0% - 24%
- Fixed Income 60% - 86%
- Alternative/Equity 10% - 24%

Your portfolio is regularly monitored and re-balanced to target weightings to stay focused on your objectives.

Performance Projection

Variability of return decreases as your investment holding period increases.

- Potential performance range over 1-year periods as high as 15% to as low as -5%.
- Potential performance range over 20-year periods as high as 7% to as low as 3%.
- **Long-term target performance is 5.1%.**

The potential return range and long-term target performance illustrate the effect of holding a diversified investment portfolio mixing various asset classes and are not specific estimates or a guarantee of performance. They are based on historical performance of market indices for each asset class and forward projections of economic trends using a 95% probability factor.

Management Expense Ratio ("MER") 1.40%

The MER includes management fees, operating expenses, and GST. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Unit values of mutual funds will fluctuate and past performance may not be repeated.
