

RETURNS

This table shows you how the Compass Balanced Portfolio performed after expenses and the contribution of each asset class over the past year.

	3 Months	1 Year	3 Year	5 Year	10 Year	Since Inception Dec. 11, 2002
The Portfolio	0.87%	2.68%	4.79%	5.36%	7.35%	6.34%

1 Year Performance of Underlying Asset Classes

HISTORICAL RANGE OF RETURNS

This graph shows the Compass Balanced Portfolio series A return ranges as of September 30, 2019, for holding periods of different lengths. For each holding period length, the chart shows the bands within which the fund's returns lay about 95% of the time.

Note: The volatility of equity and fixed income investments has historically attenuated or dampened as the holding period lengthened, as the most extreme observations tended to not repeat themselves.

DIVERSIFICATION BY ASSET CATEGORY

This chart shows the weighting of specific asset categories in the Portfolio.

Figures subject to rounding.

DID YOU KNOW THAT..?

- Compass portfolios are regularly rebalanced to target weightings.
- The Balanced Portfolio is actively managed, with a multi-manager team consisting of Canso Investment Counsel Ltd., Mawer Investment Management Ltd., QV Investors Inc., CMLS Financial Ltd., Tri-West Capital Partners, and Kensington Capital Partners.
- The management expense ratio of 1.82% on the Compass Balanced portfolio is among the lowest in its category.
- The Compass Balanced portfolio is invested in a globally diversified portfolio of equities, high quality Canadian federal, provincial and corporate bonds.
- A well-diversified portfolio matched to your needs is the best way to reach your financial goals over the long term.
